

**Team 10**  
**Sprint Backlog**

Conor Gallagher - 114320876  
Michael Jefferies - 116482442  
David Fox - 116392506  
Tim Lehane - 116300763

Lanquig Zhu - 118100065  
Sean Kavanagh - 116420624  
Lauren McDonnell - 116384966

Story points since last meeting: 10

Story ID	Story	Tasks	Estimated Time (Hours)	In Progress (Assigned to)	Task Completed?	Comments (optional)
1	As a researcher, I want to apply for funding from SFI, so that I can start research. (Story Points: 5)	Create MySQL database tables for login and registration	3	David Fox, Michael Jefferies, Lanquig Zhu, Tim Lehane	YES	Done altogether so that we know the database headings, and how the registered database users interacts with all our other databases.
		Create the HTML form for applicants in a step by step procedure	3	Lauren McDonnell	YES	
		Validate all the data before it is sent in order to avoid accidents in applications or bogus applications.	3	Sean Kavanagh	NO	
2	As a researcher, I want to submit research results in the form of documents. (Story Points: 2)	Develop an online interface where researchers can drag and drop research results in a pdf or other valid format.	2	Michael Jefferies	YES	
		Develop an online interface where a user can navigate their filesystem by clicking an "upload" button on the website.	1	Michael Jefferies	YES	
		Validate the contents of a file before it gets uploaded to our server.	1	Conor Gallagher	NO	
		Record the location of an uploaded file in the server's filesystem.	2	Tim Lehane	YES	Implemented the infrastructure necessary for the frontend team to perform relevant queries
		Allow the researcher to change files in the event of an accidental upload.	2	Lanquig Zhu	YES	write page and save in template directory
3	As a reviewer, I want to inform all researchers involved in the proposal, which proposal will be applied. (Story Points: 2)	Develop online interface where reviewers can submit the outcome of results by uploading a file	0.5	Conor Gallagher	YES	Drag and Drop as well as select from directory compatible.
		Create database of researchers that applied	1	David Fox	NO	
		Validate the contents of a file before it gets uploaded to our server.	1	Conor Gallagher	YES	Interface will only accept files in a .pdf format.
		Record the location of an uploaded file in the server's filesystem.	2	Tim Lehane	YES	Implemented the infrastructure necessary for the frontend team to perform relevant queries - stored in documents/\$id.pdf
		Allow the researcher to change files in the event of an accidental upload	2	Lanquig Zhu	YES	write page and save in template directory

4	As a general user, I wish to quickly navigate around the site with no trouble so that I quickly achieve what I came onto the website to do. <b>(Story points: 3)</b>	Create a landing (index.html) page.	2	Sean Kavanagh, Lauren McDonnell, Conor Gallagher	YES	Done altogether so there would be an agreement on the general look and theme of the website
		Create a navbar that shows all the user pages.	1	Sean Kavanagh, Lauren McDonnell, Conor Gallagher	YES	See above
5	As a researcher, I want a way for a research group to be represented and add or remove members from said research groups so that they can interact with our funders/projects. <b>(Story Points: 5)</b>	Create a database to represent groups	1			
		Implement the ability to add and remove members from groups.	5	Michael Jefferies	NO	Maybe make the owner have that ability.
		Display the current members of the team.	2			
6	As a funder, I want to publish a call for proposals so that researchers can know what fields I am currently interested in. <b>(Story Points: 3)</b>	Establish a role for funders.	2			Adding a way to distinguish between researcher, reviewer, funders etc.
		Allow funders to create posts.	4			Maybe try to prevent spam (30 minute or 1 hour timeout).
		Show the posts in order of date posted	2
